

Navigating healthcare emergencies during the pandemic

M365 MIGRATION MODERNIZE THE WAY YOU WORK

CHALLENGE

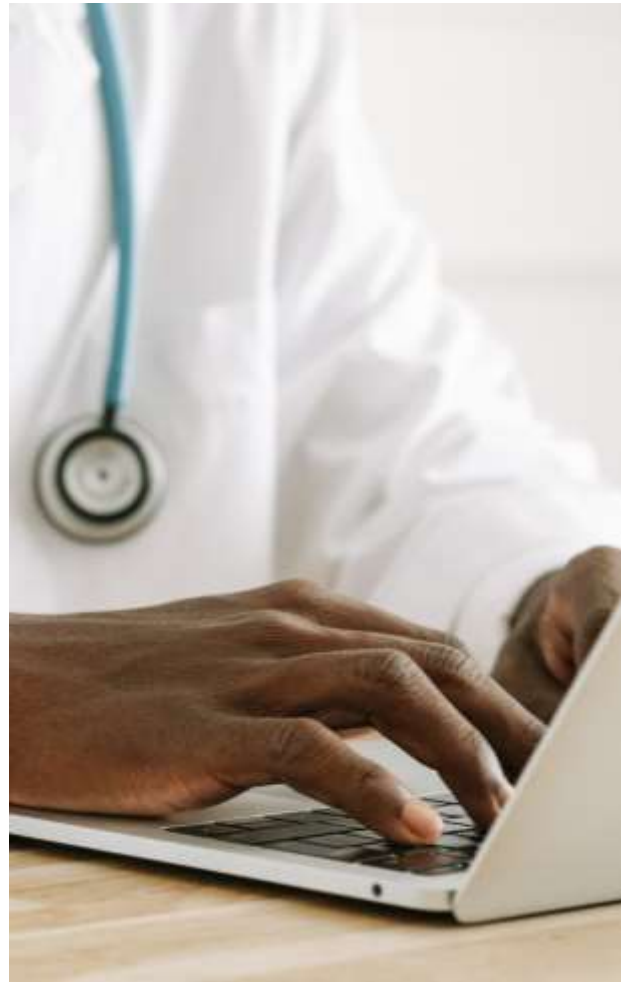

A Global health care provider was looking for a platform **for clinical brainstorming between key stakeholders**, virtual feedback and assessment and real-time data collection during the pandemic as cases were soaring and ICUs were getting filled up in no time.

SOLUTION PROVIDED

- Kryptos recommended Teams to drive communication between key stakeholders without disrupting their schedules or practices and facilitated the implementation with a quick turnaround time.
- An **M365 migration to improve the quality and consistency** of patient data entry, from a traditional excel entry method was provisioned.
- Kryptos also recommended **rethinking real-time research, with a replicable framework to collaborate** with colleagues from other disciplines in the same way to find innovative ways to treat other communicable diseases or emergencies.

BENEFITS

Teams enabled remote communication, real-time collaboration, and improved efficiency even under incredible stress, as they were able to develop a new protocol that worked better for their patients.

ABOUT KRYPTOS

With more than fifteen years of experience under its belt, Kryptos is now a pioneer in managed IT & Business services across the continents. Adding to its crown, Kryptos is an established Microsoft Gold Partner, AWS Advanced Partner, ISO 20000 & 27001 certified organization.
