

# Power Apps Custom Forms

## ABOUT THE CLIENT

Our Client is a large conglomerate and an international group of companies involved in banking, real estate, production, insurance, data analytics, and retail with more than 8000+ co-workers actively operating in 17 countries.

## BUSINESS CHALLENGE

The Client was using the classic desktop application to manage onboarding processes, provisioning systems, and other activities for their employees in this highly competitive environment. However, their existing system couldn't enhance the business agility and doesn't provide workflow and email integration to complete the business process.

To meet this business problem, Kryptos proposed using Power Apps with SharePoint Online for efficient management of data.

## DIGITAL TECHNOLOGY USED

### **MICROSOFT POWER APPS**

### **MICROSOFT POWER AUTOMATE**

### **SHAREPOINT ONLINE**

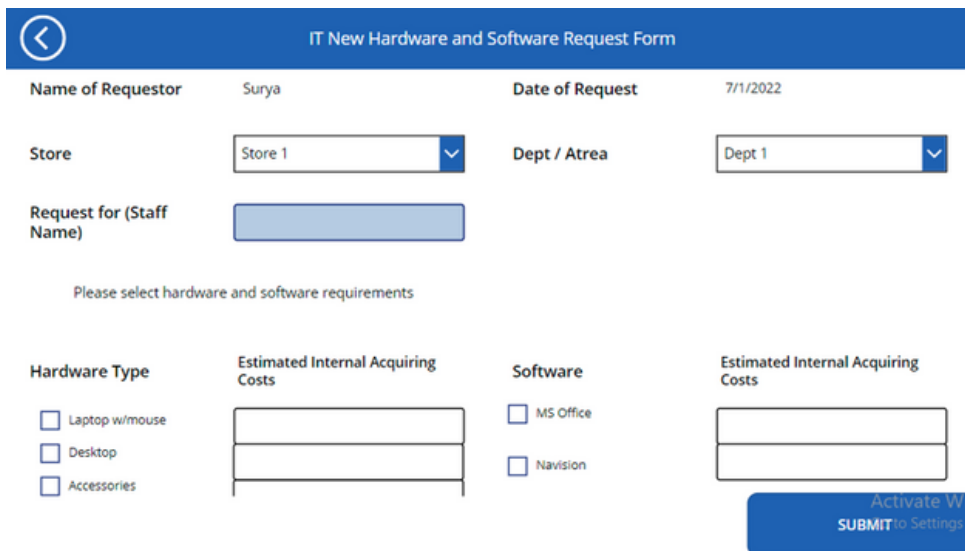

## **KRYPTOS SOLUTION**

- Kryptos evaluated all spectrum of enterprises and to maximize their business potential, we created customized tailormade forms in Microsoft Power Apps, and to store the information captured from the users, we incorporated and hosted in SharePoint Online.
- Now, the employees from the client side can log in to the system based on their Azure AD and they were able to manage any new request (IT Hardware) creation.
- Workflow is integrated using Power Automate.

## **BENEFITS**

1. Employees can create IT request forms in a quick manner
2. Workflow integration helps in the approval process with email notification
3. Seamless integration with existing business application
4. Improved overall efficiency
5. Improved employee productivity
6. High data security and provided enhanced user experience
