

Enhancing Microsoft technologies to simplify execution and increase efficiency

CHALLENGE

- Our client wanted to reduce batch processing of different documents across multiple channels to a minute.
- Manual document processing remains a low-efficiency task especially when documents must be printed and electronically transmitted daily through separate interfaces.

SOLUTION PROVIDED

- Kryptos enabled simplified batch document review and management with one click in Microsoft Dynamics 365.
- We simplified the digital methods of sending documents.
- The batch window was reduced to mere minutes to cut down the time with little or no user interaction

BENEFITS

- The entire process now takes a minute, enabling printing, transmission to a mailing service and electronic invoice submission with a single click.
- Hybrid and digital methods for sending documents are combined in Microsoft Dynamics 365 and it not only makes work easier but also saves users a lot of time.
- Processing time has been cut down from dozens of minutes down to one minute, supporting transmission by API and email while printing documents for local storage.

ABOUT KRYPTOS

With more than fifteen years of experience under its belt, Kryptos is now a pioneer in managed IT & Business services across the continents. Adding to its crown, Kryptos is an established Microsoft Gold Partner, AWS Advanced Partner, ISO 20000 & 27001 certified organization.
